Meet The Lee Family

jonathan, Laura, Olivia & David

Oaxaca. Mexico

Jonathon Lee and his family have been involved with Central for a multitude of years now. The Lee's are currently in Oaxaca, Mexico training and equipping the people who live there on who Jesus is and the call he has for all of us!

Our strategy in Oaxaca is to work alongside the already-existing churches and build a network of relationships with other churches in order to reach the least-reached in the region.

Central has been my church home since 1990. I attribute nearly all of my spiritual formation to the discipleship I received at Central. Without Central, I do not believe we would be where we are today, both personally and in ministry.
